⑨ DISCHARGE LOUNGE

⑩ MAINTENANCE & UTILITY CLOSET

⑪ BASEMENT

⑫ ROOF & HELIPAD

⑬ PARKING & PATIENT DROP-OFF

## Clearing the Pipelines to Community-Based Care

Vacuum drainage provides the plumbing infrastructure that allows sinks, toilets or any fixture requiring drainage to be placed throughout the facility as needed without disturbing tenants below or intruding into costly ground level, below-floor hazards.

Vacuum plumbing systems give healthcare providers added flexibility in converting commercial space for medical uses.
