4150-CSG

Fixture May Show Some Available Options

Infection Prevention Sink is intended for general use by medical staff, patients and food handlers. Optional Lead-Free Gooseneck Faucet includes Laminar Flow Nozzle with an integral 1.5 GPM Flow Restrictor. Sink is designed to include an angled internal slope to defuse outlet water and minimize splash while hand washing and scrubbing up to elbows. Outside Rim is at a minimal width and angled downward to prevent pooling water and discourage placement of objects on Rim. Fixture includes an offset Drain to prevent water from discharging directly into Drain.

Fixture is made of Corterra® non-porous solid surface polymer resin with the feel of commercial-grade designer Basins and includes an additive, SteriTouch®, that provides antimicrobial protection. Antimicrobial additive helps suppress the growth of odor and stain-causing microorganisms. Corterra® material is GreenGuard Gold Certified for low emissions. Fixture is easy to mount and installs onto a finished wall from the front.

Optional P-Trap Cover is made High Impact Polystyrene. Cover allows easy access to P-Trap and other plumbing components.

Waste Connection is 1-1/4" NPS Dome Strainer with Close Elbow and 1-1/4" O.D. Tailpiece.
