A MEMBER OF

(Large Hubbard Tank) F-425-S

Whitehall Model F-425-S Full Body Immersion

Tank is recommended to facilitate hydrotherapy of upper and lower extremities permitting patients full body immersion, room for body motion and exercise. This Hubbard style tank with figure "8" configuration allows therapists easy access to assure patient comfort.

Tank Capacity is 425 gallons

Hubbard Tank figure "8" configuration is overall 106"L x 77"W x 22"D and is seamless welded construction, fabricated from heavy gauge, type 304 stainless steel, polished to a satin finish. Tank bottom is a coved (rounded) design for effective cleaning. Tank has a reinforced stainless steel base supported by adjustable stainless steel legs. Tank fittings are two 1-1/4" OD overflows, one 1-1/4" NPT filler spout, one lever operated open/close drain valve and an adjustable headrest.

Turbine Raising and Lowering Device permits adjustment of desired height and direction of water agitation towards the area of the body during Whirlpool use. It is spring balanced and provided with a locking device.

Twin Turbine Assemblies are mounted on carriages with automatic counterbalance. Assemblies may be moved along the tank length for the most advantageous position. Each assembly is equipped with Underwriters Laboratory listed 1/2 HP jet pump motor protected with an ABS plastic shell, automatic thermal overload protector, and lifetime-sealed bearings. All parts contacting the water are stainless steel, chrome plated brass or bronze. **Thermometer** is provided with a dual scale, adjustable calibration, and a stem inserts into a retainer to prevent rattle during whirlpool agitation.

GUIDE SPECIFICATION

Provide Whitehall Stationary Full Body Immersion Tank with figure "8" configuration (specify model number and options) with a 425-gallon capacity, 106"L x 77"W x 22"D. Hubbard tank shall be fabricated from heavy gauge, type 304 stainless steel. Construction shall be seamless welded and exposed surfaces shall be polished to a satin finish. Tank bottom shall be a seamless rounded coved design and shall be reinforced with a stainless steel base supported by stainless steel legs that are adjustable. Provide twin turbine assemblies mounted on carriages with automatic counterbalance. Each turbine assembly with raising and lowering device shall permit adjustment of desired height, direction of water agitation, and locking in place. Turbine assemblies shall have UL listed 1/2 HP jet pump motor with automatic thermal overload protector and lifetime-sealed bearings. Provide a thermometer with a stem retainer to prevent rattle when whirlpool is in operation. An adjustable head rest assembly is also provided.
