

L Series 105 Gallon Stationary Whirlpool

L-105-S

L-105-S

Whitehall L-105-S Stationary Whirlpool is recommended to facilitate hydrotherapy of extremities, hip and back area and allows spaces for exercising.

Whirlpool Tank is 66"L x 24"W x 18"D and is seamless welded construction, fabricated from heavy gauge, type 304 stainless steel, polished to a satin finish. Tank rim is reinforced with a concealed stainless steel rod. Tank bottom is seamless, coved (rounded) design for effective cleaning. Tank is also provided with an extended stainless steel skirt flush to the floor line to conceal internal drain piping. A 2" Combination Drain Overflow and a Filler Spout are provided.

Turbine Raising and Lowering Device permits adjustment of desired height and direction of water agitation towards the area of the body during Whirlpool use. It is spring balanced and provided with a locking device.

Turbine Assembly is equipped with Underwriters Laboratory listed 1/2 HP jet pump motor protected with an ABS plastic shell, automatic thermal overload protector, and lifetime-sealed bearings. All parts contacting the water are stainless steel, chrome plated brass or bronze.

Thermometer is provided with a dual scale, adjustable calibration, and a stem inserts into a retainer to prevent rattle during whirlpool agitation.

GUIDE SPECIFICATIONS

Provide Whitehall Stationary Whirlpool (specify model number and options) with a 105-gallon capacity, 66"L x 24"W x 18"D. Whirlpool shall be fabricated from heavy gauge, type 304 stainless steel. Construction shall be seamless welded and exposed surfaces shall be polished to satin finish. Tank shall have a reinforced rim and shall be fitted with a stainless steel skirt flush to the floor line. Bottom of tank shall be a seamless, rounded coved design. Provide a 2" combination Drain Overflow and a filler spout. Provide a turbine assembly with raising and lowering device which functions as an agitator and permits adjustment of desired height, direction of water agitation, and can be locked into place. Turbine assembly shall be UL listed 1/2 HP jet pump motor with automatic thermal overload protector and lifetime-sealed bearings. Provide a thermometer with a stem retainer to prevent rattle when whirlpool is in operation.
