S Series
110 Gallon Mobile Whirlpool

Whitehall S-110-M Mobile Whirlpools are recommended for treatment and prevention of sports injuries allowing coverage of the extremities, hips and back area. Professional, college and high school athletic trainers find the larger design most suitable when treating today’s athletes.

Tank Capacity is 110 gallons.

Whirlpool Tank is 56”L x 24”W x 25”D and is seam-less welded construction, fabricated from heavy gauge, type 304 stainless steel, polished to a satin finish. Tank rim is reinforced with a concealed stainless steel rod. Tank bottom is a seamless, coved (rounded) design for effective cleaning to minimize bacteria build up.

Heavy Duty Swivel Casters support all mobile models. Rear pair of casters are lockable for stabilizing whirlpool during treatment.

Turbine Raising and Lowering Device permits adjustment of desired height and direction of water agitation towards the area of the body to be treated. It is spring balanced and provided with a locking device.

Turbine Assembly functions both as agitator and emptying device. It is equipped with Underwriters Laboratory listed 1/2 HP jet pump motor protected with an ABS plastic shell, automatic thermal overload protector, and lifetime-sealed bearings. All parts contacting the water are stainless steel, chrome plated brass or bronze.

Drain option -SDP has a bottom drain, leading to a separate, concealed water evacuation pump. A hose is attached to the side of the unit to facilitate the evacuation.

Thermometer is provided with a dual scale, adjustable calibration, and a stem inserts into a retainer to prevent rattle during whirlpool agitation.

GUIDE SPECIFICATIONS

Provide Whitehall Mobile Whirlpool (specify model number and options) with a 110-gallon capacity, 56”L x 24”W x 25”D. Whirlpool shall be fabricated from heavy gauge, type 304 stainless steel. Construction shall be seamless welded and exposed surfaces shall be polished to satin finish. Bottom of tank shall be a seamless, rounded coved design to minimize bacteria build up. Whirlpool shall have heavy duty swivel casters with locking device on rear pair of casters. Provide a turbine assembly with raising and lowering device which functions both as agitator and emptying device, permits adjustment of desired height, direction of water agitation, and can be locked into place. Turbine assembly shall be UL listed 1/2 HP jet pump motor with automatic thermal overload protector and lifetime-sealed bearings. Provide a thermometer with a stem retainer to prevent rattling when whirlpool is in operation.
