BARIATRIC PLUMBING FIXTURES

**PROVIDING SAFETY and MAXIMUM
SUPPORT with UNIVERSAL DESIGN**

BARIATRIC PLUMBING FIXTURES ON-FLOOR

BARIATRIC ADA ON-FLOOR STAINLESS STEEL TOILET - Model No. WH2125A

For applications requiring ADA compliance and much heavier weight resistance, the Whitehall Bariatric ADA On-Floor Stainless Steel Toilet is constructed from 14 gauge/304 stainless steel and supported by both the floor and the wall.

Bariatric ADA toilets are available with a variety of optional Enviro-Glaze® powder coated color finishes, enhancing aesthetics and reducing the stigma of traditional institutional style fixtures.

2,000 - 5,000 LB. WEIGHT LIMIT

Shown with **Big John® toilet seat**
(Toilet has a 5,000 lb weight limit)

BARIATRIC TANK STYLE ADA ON-FLOOR STAINLESS STEEL TOILET - Model No. WH2125BAR

Featuring an elongated bowl, self-draining flush rim and Big John® hinged toilet seat (up to **1,200 weight limit**), the Bariatric Tank Style ADA Toilet can withstand loads up to **5,000 lbs.** Perfect for retrofitting applications, the tank allows for ease of installation and maintenance, while floor and wall supports allow bariatric patients to feel safe and comfortable using the toilet.

(Toilet has a 5,000 lb weight limit)

WH2125A, Top Supply

END BREAKAGE WITH STAINLESS STEEL

Bariatric patients require plumbing fixtures with higher maximum weight capacities than average fixtures found in healthcare facilities.

Traditional china toilets support only about 500 lbs., and are more likely to break and cause injury to patients. Traditional porcelain toilets (above) can buckle under immense pressure, shattering and creating sharp and dangerous debris.

BARIATRIC OFF-FLOOR STAINLESS STEEL TOILET - Model No. WH2105BAR

Constructed of 14 gauge/304 stainless steel, the Bariatric Off-Floor Toilet features a siphon jet and is engineered to withstand up to **1,000 lbs.** when combined with an optional Jay R. Smith Mfg. Co.® fixture support.

- White Enviro-Glaze® Powder Coating offers a sleek and aesthetic appeal
- Wall mount bariatric toilets are ideal for easy cleaning beneath the toilet, reducing the growth of mold and harmful bacteria

Model No. **WH2105BAR-HSBJ**

Off-Floor Toilet with Big John® toilet seat

Wall mount bariatric toilets allow ease of cleaning by providing plenty of space beneath the toilet for mops and brooms.

BARIATRIC STAINLESS STEEL SINKS - Model No. WH3740BAR

When combined with the proper carrier, Whitehall Bariatric Stainless Steel Sinks support up to **1,000 lbs.** and are ideal for applications where bariatric patients and healthcare professionals lean against the sink for support.

Mounted at the appropriate height above the floor, bariatric sinks provide ease of cleaning and maintenance, and comply with ADA requirements.

Combine bariatric sinks with BestCare® ligature-resistant faucets, drains and grab bars to reduce ligature points in behavioral healthcare settings.

- **3 ½" deep stainless steel bowl with integral "D" shaped bowl**
- **Enviro-Glaze® powder coated unit (shown in white)**
- **For bariatric compliance, pair with a Jay R. Smith Mfg. Co.® fixture support**

TYPICAL BARIAT

SAFETY. SUPPORT. DESIGN.

Patient falls, often serious, occur most frequently between the bed and the toilet. To encourage patient self-mobilization, reducing fear of falling is essential. This includes selecting floor coverings, locating handrails, defining rest areas, and selecting appropriate fixtures that can handle bariatric weight capacity.

Not only do Whitehall Bariatric Fixtures protect against hazardous accidents but are also designed with universal design in mind. **A universally designed environment** accommodates not only bariatric concerns, but also ADA requirements, without the need to reorganize or move other patients. All patients feel welcomed and less stigmatized.

ELIMINATE FIXTURE COLLAPSE & INJURY

Jay R. Smith Mfg. Co.® fixture supports are of extreme importance with bariatric fixtures. The fixture support is anchored to the floor and concealed behind the wall, effectively reducing opportunities for fixture collapse and serious patient injury.

INFECTION PREVENTION & LIGATURE-RESISTANT

Model No. 4151

INFECTION PREVENTION SINK

- SteriTouch® antimicrobial additive inhibits growth of bacteria and mold
- Thin outside rim angles downward to discourage placement of objects on the sink
- Internal slope defuses water flow, minimizing ability of infection to spill out
- Optional foot pedal operation

Model No. 4171

ALL IN ONE HAND WASHING SYSTEM & SCRUB SINK

dyson airblade wash+dry

- Eliminates hazards associated with water dripping on the floor
- Convenient wash and dry capabilities in the same unit
- Constructed from durable stainless steel
- Easy maintenance

Model No. WH3776 Series
(Color shown: Moonstone Metallic)

LIGATURE RESISTANT, ADA COMPLIANT CORTERRA™ CAST SOLID SURFACE CORNER BASIN

- Space-saving design
- Rounded corners and sloped side splash limit ligature points
- Available in right and left hand models
- Constructed from cast solid surface
