### **Ligature Resistant Sensor Activated Faucet 4" Centerset**

**The Ligature Resistant Sensor Activated Faucet** is recommended for patient bathrooms and facilities where at risk accommodations are a concern. The faucet is designed to retrofit onto existing 4" centerset lavatory decks with 3-hole openings providing Ø1" minimum to Ø1-1/2" maximum holes; or can be specified with Whitehall BestCare ligature resistant lavatories. The faucet includes hand free operation, made of chrome plated lead-free brass and intended to be vandal resistant.

**Valve** is an electronic valve with sensor activation. Valve includes 9VDC Sensor that will keep the solenoid open, allowing water to flow until the object is removed from sensor range. If an object is positioned in a manner that it is under constant detection, the sensor will turn off the solenoid after 20 seconds. A 120VAC/9VDC plug-in transformer or a 6 AA Battery Box is provided. Batteries are not included.

**Spray nozzle** is non-splashing, non-aerated, multi-stream with a 0.5 GPM flow control.

**Optional WHST70-12 or WHST70-38 Mixing Valve** option is ASSE 1070 compliant and delivers tempered water flow by compensating for pressure and temperature fluctuations. Valve is to be field set to 105° Fahrenheit and includes strainers and integral checks. Operating range is 30 to 100 PSI.

**Optional -LFK Laminar Flow Restrictor Kit** to increase flow rate of Faucet. Kit includes Spanner Wrench to remove existing Nozzle and three different Laminar Flow Restrictor replacements providing 1.2 GPM, 1.5 GPM, and 1.75 GPM.

**Fixture is ADA Compliant.** Unit conforms with ADA requirements for accessibility when correctly installed. Compliance is subject to the interpretation and requirements of the local code authority.

### **GUIDE SPECIFICATION**

Provide and install Ligature Resistant Faucet (specify model number and options). Faucet valve shall be electronic, sensor activation. Assembly shall include 0.5 GPM flow control, multi-stream laminar spray nozzle, 9VDC sensor and faucet connections.
